

## PRODUCT DATA SHEET

Product no.: 4384-6566

# be.tex® Samba® Opaque FR

WOVEN

### PRODUCT FEATURES

Material: 100% polyester  
 Weight: 255 g/m<sup>2</sup>  
 Thickness: 260 µm  
 Transmission factor: 0.022 %  
 Whitepoint: 91\*0\*-2 L\*a\*b

### WIDTHS (cm)

ca. 160  
 ca. 260  
 ca. 320

### LENGTHS (m)

ca. 70  
 ca. 60  
 ca. 60

### APPLICATIONS

|                         |                  |
|-------------------------|------------------|
| Blockout                | Air tight        |
| Display frame systems   | Blackout         |
| Roll Up display systems | No fraying       |
| Backdrops               | Crease resistant |
| Banners                 |                  |

### FEATURES

### DESCRIPTION

The award winning be.tex® Samba Opaque FR features a blackout-effect achieved through a black yarn in the weaving. There is no blackout coating on the back. It's very tough and features include a crease free structure which allows for folded shipping, etc. The media is curl free which makes it the perfect choice for roll-up applications.

Samba base fabric with black yarn (blockout), developed for UV, Solvent and Latex printing. Not recommended for HP Latex 280 / L28500. When handled carefully this fabric can be folded after printing.

### NOTES

The numbers above are purely guidelines and may differ depending on your personal printing needs and expectations. Since the printing results depend on numerous factors, we strongly advise to test your output in order to find out if any adjustments are necessary. A legally binding assurance of certain properties of the fabric can not be derived from the information above.
